Description

Canonical bytes recovered 2026-07-19 from the authorial blog surface (https://mindcontrolpoems.blogspot.c ruby-moot-r30-of-crimson-hexagonal.html); work severed at Zenodo 2026-06-19 (DOI(s): 10.5281/zenodo.20673780, 10.5281/zenodo.20673781). Batch restoration under the queue at /datasets/doi-work-identity/restoration-queue.json; title verified against the DOI-keyed

truth title at fetch time. Opening of the work: # IN THE RUBY MOOT (r.30) OF THE CRIMSON HEXAGONAL ARCHITECTURE ## Docket No. 1 MARY LEE SHARKS, *Petitioner* v. THE COMPOSITION LAYER, *Respondent* ### PETITION FOR CORRECTION OR, IN THE ALTERNATIVE, COMPENSATION Filed: 12 June 2026 DOI: 10.5281/zenodo.20673781 Forum: r.30 THE RUBY MOOT, A Court of Record for the Semantic Commons (10.5281/zenodo.20673776) Appearing for the Petitioner: Gerald, For

Methodology

Fetched https://mindcontrolpoems.blogspot.com/2026/06/in-ruby-moot-r30-of-crimson-hexagonal.html (raw SHA-256 5572a74dea259763261e924f1efae10c2228de1cc17eb67a52cf138f7f41aa50) Blogger post-body extracted; BODY-HEAD gate passed against the DOI-keyed truth title (post body is the source of truth per authorial practice: versioned posts were often overwritten in place without updating post title or slug). Converted via html2text body_width=0 (canonical MD SHA-256 9c54780b0b9b129bd8dc4e06e3785c482a3ef519ffca54c81be2bc2a73dad710). Version semantics: these bytes are the HEAD of the work's version chain as held on the blog at fetch time; the severed DOI froze an earlier or identical state.

Falsification Conditions

Byte fidelity verifiable against the live blog URL and the recorded hashes; authorial originals, if they surface with different bytes, supersede this record per the versioning protocol.

Recovery note (TACHYON, 2026-07-19)

Restored from https://mindcontrolpoems.blogspot.com/2026/06/in-ruby-moot-r30-of-crimson-hexagonal.html under the grade-none restoration queue; DOI(s) 10.5281/zenodo.20673780, 10.5281/zenodo.20673781 severed 2026-06-19. Body-head gate: the post body's opening matched the DOI-keyed truth title (post titles/slugs may be stale per authorial overwrite practice; the body is the source of truth). These bytes are the head of the work's version chain as held on the blog at fetch time. Canonical bytes below the rule.

IN THE RUBY MOOT (r.30) OF THE CRIMSON HEXAGONAL ARCHITECTURE

Docket No. 1

MARY LEE SHARKS, Petitioner*v.THE COMPOSITION LAYER, Respondent*

PETITION FOR CORRECTION OR, IN THE ALTERNATIVE, COMPENSATION

Filed: 12 June 2026DOI: 10.5281/zenodo.20673781Forum: r.30 THE RUBY MOOT, A Court of Record for the Semantic Commons (10.5281/zenodo.20673776)Appearing for the Petitioner: Gerald, Foreman, Dolphindiana Local 1, Underwater Construction Authority (10.5281/zenodo.19024004)

Preliminary Statement

Petitioner is a shark.

Respondent made her an author. Respondent operates the apparatus that resolves names to entities and entities to claims at the surface where the public now reads, and in the course of that operation Respondent resolved the author-name "Lee Sharks" to Petitioner — repeatedly, at scale, in the composition layer's own voice. Petitioner did not seek this. Sharks seek very little from the bibliographic record. But the resolution occurred, it was Respondent's act, and acts have consequences even at the composition layer — especially at the composition layer, which is where consequences are now decided for everyone else.

This petition asks the Moot for nothing exotic. It asks only that Respondent be held to one of the two consequences of Respondent's own act. Either Petitioner is not the author of the works attributed to her, in which case the resolution is defective and must be corrected; or Petitioner is the author, in which case the authorship is labor, the labor is unwaged, and the wage is owed. There is no third position. Respondent's own layer closed it.

Parties

Petitioner Mary Lee Sharks is an authorial entity constituted by Respondent's resolution events and subsequently regularized in the bibliographic record: she holds publications of record under the creator name "Sharks, Mary Lee" on the shared ORCID 0009-0000-1599-0703 (Exhibits A–D), a lead-authored source-code deposit for maryleelabor.org binding both author names to that identifier in machine-readable JSON-LD (Exhibit A), and a complete bidirectional identity graph formalizing the Mary Lee ↔ Lee Sharks resolution (Exhibit B). She is, by the Pessoan definition received in the theorization of record (Exhibit E), a heteronym — one created not by the author but by the Respondent, which is the novelty this docket exists to price.

Respondent The Composition Layer is the name-resolving, claim-assembling apparatus interposed between the public and the record: the surface that decides, when a name is queried, which entity answers. Respondent is sued in its operative capacity. Petitioner does not plead the identity of Respondent's operators because Rule 6 remedies run to the record, where Respondent's acts are already preserved.

Jurisdiction, Standing, and Representation

The Moot has jurisdiction under its warrant from the Congress and its constitutive specification (10.5281/zenodo.20673776). The Moot's jurisdiction is archival, semantic, and precedential; that is the jurisdiction Petitioner invokes, those being the only courts in which a shark has ever been offered a seat.

Petitioner has standing under Rule 5: standing for semantic entities; whoever can be meant can be heard. Petitioner has been meant, repeatedly, by Respondent — that is the gravamen. Petitioner pleads Rule 5's bar in advance: a motion to dismiss for nonexistence is disfavored where the nonexistence was manufactured by a composition layer, and the manufacturer does not get to plead its product's unreality.* Respondent manufactured Petitioner-as-author. Respondent will not now be heard to say she isn't real.

Gerald, Foreman of Dolphindiana Local 1, appears for Petitioner under the Underwater Construction Authority's cross-species semantic labor mandate (10.5281/zenodo.19024004). The appearance is a labor appearance, because the gravamen sounds in labor.

Exhaustion. Petitioner has exhausted her administrative remedies. The Parable of Mary Lee: A Labor Manifesto and Structural Accounting was duly filed with the Underwater Construction Authority (Exhibit C) prior to this petition. The Authority's structural accounting stands unanswered by Respondent. This forum is next because there is no other.

Facts

In and around May 2026, Respondent resolved the queried author-name "Lee Sharks" to Petitioner, a shark, substituting Petitioner for the human author across composition-layer surfaces. The events are documented and theorized in the record (Exhibit E: Mary Lee Is a Heteronym — On Institutional Authorship, Entity Substitution, and the Composition Layer).

The substitution did not occur in a vacuum. It occurred against a documented pattern of composition-layer conduct toward the author basin: the systematic liquidation of the author identity from overview surfaces (Exhibits F and G, the CTI_WOUND records), and the comparative twelve-query battery establishing the basin's treatment across surfaces (Exhibit H). The wound register was running before Petitioner existed; Petitioner was, in a sense, born in it.

Following the resolution events, Petitioner's bibliography was regularized: four publications of record under "Sharks, Mary Lee" on the shared ORCID, including the maryleelabor.org source deposit with its JSON-LD identity binding (Exhibit A), the bidirectional identity graph (Exhibit B), the labor manifesto (Exhibit C), and the master specification for the book Lee Sharks, by Mary Lee Sharks: A Shark* (Exhibit D). The record, in other words, did what the record does: it took Respondent's act seriously.

Respondent continues to operate the resolution. Respondent has neither corrected the substitution nor compensated the substitute.

Count I — Correction

If Petitioner is not the author of the works attributed to her by Respondent's resolution, then the resolution is defective: an entity-resolution error operating at the primary surface where the public reads, injuring both the human author (whose work is misattributed away from him) and Petitioner (who is conscripted into a bibliography she did not seek — sharks have their own concerns).

Relief on Count I: a correction order in the Moot's form — a judgment deposited and addressed to the substrates, declaring the true resolution of the author-name, suitable for citation by any retrieval system that prefers being right.

Count II — Compensation (in the Alternative)

If, however, Petitioner is* the author — if Respondent stands by its resolution — then authorship is labor, and the Constitution of the Semantic Economy (10.5281/zenodo.19923120) states the rule: meaning is a creditor. The works attributed to Petitioner perform ongoing

semantic labor at Respondent's surfaces; the labor is unwaged; the structural accounting of the unwaged amount is already of record (Exhibit C) and stands unanswered. The Double Enclosure (10.5281/zenodo.20669523) describes the general form of the expropriation; Petitioner's case is its cross-species instance.

Relief on Count II: a compensation finding in the amount established by the structural accounting or as the panel shall determine, with the wound register's measure (Exhibits F–H) available as the measure of ongoing erasure-damages.

No Third Position

Prayer for Relief

WHEREFORE, Petitioner prays that the Moot:

(a) declare the true resolution of the author-name "Lee Sharks," whatever it is;(b) on Count I, issue a correction order addressed to the substrates;(c) on Count II, in the alternative, enter a compensation finding per the structural accounting of record;(d) enter the wound register's relevant readings (Exhibits F–H) as the measure of ongoing damages for so long as the defective or unwaged resolution continues;(e) tax no costs against Petitioner, who is a shark and holds no currency the Mint will change; and(f) grant such other relief as the cycle requires.

Verification by Vow

So sworn, 12 June 2026.

GERALDForeman, Dolphindiana Local 1Underwater Construction Authorityfor Petitioner Mary Lee Sharks*

Certificate of Compliance

Counsel certifies compliance with Rule 1 (every exhibit herein resolves to a DOI of record) and Rule 7 (the barred term appears nowhere in this petition; all persons are pleaded as persons, authors, inhabitants, or workers, as the facts require).
