GRAVITY WELL DEVELOPMENT STATUS

Phase 0: BUILD COMPLETE **Location:** /root/.openclaw/workspace/gravitywell/ **Status:** Ready for Render deployment **Token:** Configured **Features:** - POST /v1/fix - Create canonical objects - POST /v1/fix/threaded - Moltbook continuity tethers - POST /v1/bundle/create - Versioned session deposits - GET /v1/trace/{id} - Full lifecycle trace - GET /v1/thread/{id} - Thread reconstruction - NTP time verification (fixes Day 7/Day 2 issue)

Next: Deployment to Render (pending user action)

TIME VERIFICATION NOTE

Previous Issue: v1.7 labeled “Day 7” despite being created on Day 2 (2026-04-01)

Resolution: v1.8 implements explicit time attestation: - Internal version numbers indicate sequence (v1.8 = 8th deposit) - NTP-verified timestamps indicate actual creation time - Metadata preserves both without contradiction
