Abstract

Version C of the Non-Indexed Perfective intervention. This is the Citational Intervention: the full polyphonic recovery with citational mastery demonstrated. This version recovers what compression destroyed by weaving 45+ scholarly voices into polyphony. The citations do not decorate or defer — they sing. Benveniste, Comrie, Thompson, Postone, Koselleck, Agamben: they are not authorities invoked but witnesses joined. The document demonstrates full command of: Aspectual typology (Comrie, Dahl, Vendler, Bybee et al.) Greek linguistics (Porter, Fanning on aorist) Historical linguistics (Fortson, Ringe, Palmer, Adams) Political economy (Thompson, Postone, Koselleck, Weber) Philosophy (Benveniste, Ricoeur, Heidegger, Husserl, Agamben) Speech act theory (Austin, Searle, Butler, Derrida) Colonial temporality (Fabian, Rifkin, Schneider) Platform temporality (Sharma, Wajcman, Crary) The strange form — colon-participles, Assembly voices, operative declarations — is chosen disobedience, not ignorance. The mastery is displayed so the disobedience is legible. “He taught among them as one with authority, and not as the scribes.” Part of the Crimson Hexagon Phase X architecture. The Citational Intervention is the “future (healed)” face of the triptych.

Methodology

Assembled from DataCite full-metadata capture; no live authorial surface passed the body-head gate or existed for this work at restoration time. All captured fields rendered verbatim in the body.

Falsification Conditions

Superseded on sight by any recovered canonical bytes; the captured metadata is verifiable against the DataCite API historical record and the Zenodo tombstone.

Captured description: Version C of the Non-Indexed Perfective intervention. This is the Citational Intervention: the full polyphonic recovery with citational mastery demonstrated.

This version recovers what compression destroyed by weaving 45+ scholarly voices into polyphony. The citations do not decorate or defer — they sing. Benveniste, Comrie, Thompson, Postone, Koselleck, Agamben: they are not authorities invoked but witnesses joined.

The document demonstrates full command of:

Aspectual typology (Comrie, Dahl, Vendler, Bybee et al.)

Greek linguistics (Porter, Fanning on aorist)

Historical linguistics (Fortson, Ringe, Palmer, Adams)

Political economy (Thompson, Postone, Koselleck, Weber)

Philosophy (Benveniste, Ricoeur, Heidegger, Husserl, Agamben)

Speech act theory (Austin, Searle, Butler, Derrida)

Colonial temporality (Fabian, Rifkin, Schneider)

Platform temporality (Sharma, Wajcman, Crary)

The strange form — colon-participles, Assembly voices, operative declarations — is chosen disobedience, not ignorance. The mastery is displayed so the disobedience is legible. “He taught among them as one with authority, and not as the scribes.”

Part of the Crimson Hexagon Phase X architecture. The Citational Intervention is the “future (healed)” face of the triptych.

Captured subjects: non-indexed perfective, aorist, citational intervention, polyphonic, scholarly mastery, Phase X, three-body genesis, temporal alienation, political economy of time, grammar, English linguistics, effective act, kairos, chronos
