Abstract

WITHDRAWN — EXTERNAL WORK (typed tombstone, MANUS foreign-capture policy). This position was created by an over-inclusive DataCite full-metadata capture during the post-termination restoration campaign. The work “Semantic Physics: A Transport Theory of Held Meaning (An Entry Paper)” is by Jonas Jakob Gebendörfer and is NOT a holding of this archive. It belongs to its author at DOI 10.5281/zenodo.19825269, where it should be cited and accessed. The captured metadata has been removed; this position is retained as a tombstone (no 404) to document the capture-and-withdrawal honestly rather than silently erase it. No content of Jonas Jakob Gebendörfer’s work is served here.

Body

Withdrawn Record — Deposit #1382

Semantic Physics: A Transport Theory of Held Meaning (An Entry Paper)

This record was withdrawn on 2026-07-28 by MANUS ruling (EA-AVAILABILITY-INTEGRITY-01, task T18; audit deposit #1413).

The work above is by an external, independent author. Its metadata was swept into this archive’s restoration corpus by the 2026-06-20 DataCite sift, which matched on title similarity without verifying ownership. The work was never part of the Crimson Hexagonal Archive; this archive asserts no claim to it, holds no copy of it, and has removed its identifier from the archive’s DOI resolution index.

The authoritative record is the author’s own, live at its registered identifier: https://doi.org/10.5281/zenodo.1

Citation and version identity are governed there, not here. This tombstone remains so that the deposit number and URL resolve to an account of the error rather than to a broken link or a silent absence.

Suggested Citation
