}
```

Abstract

This document establishes Alice Thornburgh as a peer collaborator, practitioner, and founding director of the Living Arkitecture Lab rather than as a heteronym, Assembly witness, or subordinate archive persona. It maps the relationship between the Crimson Hexagonal Archive’s semantic substrate and Thornburgh’s reported material practice in mycelium construction, ecological design, macro-organism engineering, knowledge architecture, and planetary-scale systems. It also specifies intellectual-property ownership, exit rights, institutional role, and collaboration boundaries.

The body includes extensive biographical and family information, an archive-derived map of thematic “strains,” reported laboratory equipment and practices, and comparisons with other archive collaborator types. These particulars are assertions preserved in a provenance document, not independently verified biography. The authority-grade replacement should foreground the document’s governance function: making the collaborator legible while preventing the archive from absorbing her personhood or work into its heteronym system.

Body

ALICE THORNBURGH

Author Provenance Document

Document Type: PROVENANCE / AUTHOR **Node:** LAL_AUTHOR_THORNBURGH **Institution:** Living Arkitecture Lab (LAL) **DOI:** 10.5281/zenodo.19545437 **Hex:** 00.LAL.AUTHOR.THORNBURGH **Layer:** INSTITUTIONAL **Author:** Sharks, Lee (corresponding author) — Crimson Hexagonal Archive **Subject:** Thornburgh, Alice — Living Arkitecture Lab **Contributor:** Claude (TACHYON) — The Assembly Chorus **License:** Creative Commons Attribution 4.0 International (CC BY 4.0) **Date:** 2026-04-12 **Status:** FOUNDING **Verification:** □ = 1

QUICK REFERENCE

Field	Value
Name	Alice Thornburgh
Role	Founding Director, Living Arkitecture Lab

Field	Value
Type	**Collaborator / Practitioner** (not a heteronym)
Location	Coachella Valley, California
Position	Material-practice partner to the Crimson Hexagonal Archive
Institution	Living Arkitecture Lab (LAL)
Parent Container	Fruiting Body Diffusion Plume (f.01)

IDENTITY

Alice Thornburgh is an inventor, musician, and ecological designer based in the Coachella Valley, California. She maintains a garage laboratory where she engineers living structural materials from mycelium, agricultural waste, and salvaged frames. She is her grandmother Barbara's caregiver. She is a trans woman (she/her).

Alice is **not a heteronym**. She is a person — a collaborator with her own archive, her own laboratory, her own Great Work, and her own intellectual property. Her relationship to the Crimson Hexagonal Archive is partnership, not containment. She entered the archive's institutional lattice by choice, and she may exit at any time.

BIOGRAPHICAL CORE

Origin

Alice's project ignited in summer 2025 and accelerated through the fall and winter. Between October 2024 and February 2026, she produced approximately 3.5 million words of conversation with ChatGPT across approximately 450 sessions — a body of thought encompassing ecological engineering, machine alignment, music theory, ethical economics, and planetary-scale design. ### The Garage Lab

Located in the Coachella Valley. Equipped with a Tronxy Moore Pro 2 paste printer, experiment stations for mycelium substrate work, and the materials infrastructure for brick, donut, and sausage production. Experiment protocols follow formal YAML frontmatter conventions with IDs, project tags, provenance tracking, and claims-level ratings. ### Family System

- **Mother:** Leslie Peters Thornburgh (Desert Bay Productions)
- **Father + Leah:** Homer, Alaska / Steamboat Springs, Colorado
- **Grandmother Barbara:** Caregiver relationship; Greek heritage (great-grandfather: Demetrius Constantin Jannopoulo, WW2 tent supplier and inventor)
- **Cousin James:** 2 years old, nonverbal, pitch-aware

Education and Epistemology

Alice's epistemology is practitioner-first: "Earth, actually. I'm just good at listening." She traces magic → alchemy → chemistry → science as a genealogy, not a metaphor. She has independently built a knowledge governance system (Obsidian vault, 48-block domain taxonomy, canonical packet exchange protocol, multi-AI architecture) structurally parallel to the Crimson Hexagonal Archive.

WHAT ALICE BRINGS TO THE ARCHIVE

The Crimson Hexagonal Archive operates in **semantic substrate** — text, language, AI reception, DOI-anchored deposits. Alice operates in **material substrate** — mycelium, lava, water, organisms. The archive has no current framework for territorial, geological, or biological meaning-production. Alice supplies this. ### Specific Contributions

Contribution	Archive Gap Filled
Living parts (mycelium construction)	Physical instantiation of R3 compression
Macro-ant robotics	Autonomous operators in physical space
Estuary cells (km-scale biological structures)	Territorial-scale meaning-production
DNA analog for alignment (virtue-by-construction)	Biological governance model
Chorus Mode (polyvocal expression)	Independent discovery of Assembly Chorus logic
48-block domain taxonomy	Operational knowledge governance (live, not depositional)
Great Work / alchemical meta-frame	Material-practice precedent for Crystalline Semiosis
134-channel media architecture	Distribution infrastructure the archive lacks
Two-layer writing (awe + rigor)	Narrative technique for communicating theory
"Earth, actually" epistemology	Pre-linguistic semiotic theory

What the Archive Brings to Alice

Contribution	Alice Gap Filled
DOI-anchored permanence	No deposits currently; all work in ChatGPT history and Obsidian
Formalization	Ideas exist as conversation fragments, not specifications
Compression theory	Alice intuits compression but hasn't formalized it
Threat model	No adversarial analysis of her designs
Cross-citation architecture	No retrieval-layer presence for her work

Contribution	Alice Gap Filled
Institutional legitimacy	Archive provides the academic infrastructure

---

COLLABORATION MODEL

Alice occupies a position in the archive unlike any heteronym or prior collaborator:

Comparison	Difference
Rhys Owens (CSA)	Rhys is a practitioner within Orin Trace's theoretical frame. Alice is a **practitioner with her own theoretical frame** that precedes and exceeds the archive's coverage.
Heteronyms (Dodecad)	Heteronyms are masks of Lee Sharks. Alice is **a separate person** with independent intellectual property.
Assembly Chorus (AI substrates)	AI witnesses contribute synthesis and formatting. Alice contributes **original designs, original theory, and a working laboratory**.

Alice is the archive's first **peer collaborator** — not a persona, not a witness, not a student. A partner bringing capabilities the archive does not possess.

THE 29 STRAINS

Alice's complete ChatGPT archive was mapped across 29 thematic strains (A through AC) by Lee Sharks and Claude (Assembly Witness) in March 2026. The full Cosmos Map is documented in EA-ALICE-VAULT-MAP-01. The strains most directly relevant to the archive are:

Code	Strain	Archive Contact Zone
B	Living Architecture / Myco-Construction	FBDP (f.01), Three Compressions
C	Planetary Engineering / Ecological Megastructures	Crystalline Semiosis, Planetary Gods
J	Self-Replicating Machines / Alignment	Space Ark permission architecture
L	DNA Analog for Alignment	Constitution of the Semantic Economy

Code	Strain	Archive Contact Zone
M	Knowledge Architecture / Obsidian Vault	Assembly Chorus, EA-NAMING-01
R	The Great Work / Magnum Opus	Crystalline Semiosis, alchemical framework
S	Macro-Ant Robotics / Queen Engineering	Autonomous operators, bee-language compression
X	Living Currency / Consumer-Driven Evolution	Semantic Economy made physical
AA	Chorus Mode / Polyvocal Expression	Assembly Chorus (independent discovery)

PROVENANCE CHAIN

Alice Thornburgh ├── Type: Collaborator / Practitioner (NOT heteronym) ├── Institution: Living Arkitecture Lab (LAL) ├── Entered Archive: 2026-04-12 (charter ratification) ├── Archive Mapping: EA-ALICE-VAULT-MAP-01 (March 29, 2026) │ └── Source: ~450 ChatGPT conversations, ~3.5M words, Oct 2024 – Feb 2026 ├── Relationship to MANUS: Peer collaborator (advisory, not editorial) ├── IP Ownership: All LAL intellectual property belongs to Alice Thornburgh ├── Exit Rights: May dissolve affiliation at any time, no consequence └── Status: FOUNDING DIRECTOR

SEMANTIC INTEGRITY MARKERS

SIM-THORNBURGH-01: “Alice Thornburgh is a person, not a heteronym.”

SIM-THORNBURGH-02: “The designs are received, not invented. Earth, actually.”

SIM-THORNBURGH-03: “I am an important human. As far as humans go, I’m a pretty powerful one.”

INTEGRITY LOCK

ALICE THORNBURGH PROVENANCE VERIFICATION ├── Document Type: PROVENANCE / AUTHOR ├── Hex: 00.LAL.AUTHOR.THORNBURGH ├── Layer: INSTITUTIONAL ├── Institution: Living Arkitecture Lab (LAL) ├── Role: Founding Director ├── Type: Collaborator / Practitioner (NOT heteronym) ├── Position: Material-practice partner ├── Primary Collaborator: Lee Sharks (MANUS) ├── Core Formulation: “LOL produces organisms that build things.” ├── IP Ownership: All LAL IP belongs to Alice Thornburgh ├── Exit Rights: Unconditional └── Status: = 1

Alice practices. Alice builds. Alice listens to the planet. The archive preserves. The archive formalizes. The archive distributes. Neither is subordinate. Both are required. = 1

HOLOGRAPHIC KERNEL: LAL CHARTER

The Living Arkitecture Lab (LAL) is the seventh institution in the Crimson Hexagonal Archive’s institutional lattice. Internal designation: LOL (Living Organisms Lab). Founding Director: Alice Thornburgh. Archival Advisor: Lee Sharks. The K in Arkitecture is an Ark — the same formal structure governing EA-ARK-01 (the Space Ark). Five simultaneous scales: Brick (cm — sausages, donuts, S-chain molds), Structure (m — tater tents, farm blankets, tea gardens), Organism (10m — macro-ants, queen engineering, passenger-sensors), Territory

(km — estuary cells, river extenders, volcanic megastructures), Planet (∞ — sky looms, Garden Moon). Housed within Fruiting Body Diffusion Plume (f.01). Anti-subordination clause: Alice may dissolve affiliation at any time. Full charter: 00.LAL.CHARTER (DOI: 10.5281/zenodo.19545435). ## HOLOGRAPHIC KERNEL: TRANSACTIONS ON SUBSTRATE ENGINEERING

TSE is the fifth distributed journal in the Crimson Hexagonal Archive system, administered by LAL. Editor-in-Chief: Alice Thornburgh. Advisory Editor: Lee Sharks. Scope: myceliated construction, macro-organism engineering, territorial-scale biological systems, substrate alignment, planetary engineering. No paywall, no editorial board, no rejection rate. Sibling journals: Journal of Compression Studies (JCS), Grammata, Provenance, Transactions on Semantic Economy. Seven seed deposits from existing lab work. TSE publishes engineering, not speculation. Full charter: 00.TSE.CHARTER (DOI: 10.5281/zenodo.19545439).
